

### Shewhart Charts (Control Charts)

Create a Shewhart Chart and analyze data in seconds.

### Pareto Charts

Draw amazing Pareto charts without the need to sort and subtotal data.

### Fishbone Diagrams

Aimi Analytics makes creating Fishbone Diagrams a breeze!

### Driver Diagrams

Organize information on proposed activities to see the relationships between the aim and the changes to be tested.

### Dashboards

Create many dashboards to visualize your charts in one place.

### Access Anywhere, Anytime

Aimi Analytics runs in any browser, from any device, anywhere, at any time.

## Aimi Analytics

Powerful, intuitive and easy to use SPC and data analysis tools with dashboards for Model for Improvement, Six Sigma, Lean Six Sigma, UDTI, 5S, and all other process improvement methodologies.

# Why Aimi Analytics?

1. Take the math out of charts
2. Enter data and the chart is rendered
3. Multiple charts per worksheets makes it easy to group information
4. Easily define phases and adjust the settings individually for each chart
5. Familiar spreadsheet environment
6. Import from and Export to MS Excel and other spreadsheets

# Aimi Analytics vs ...

	<b>Aimi Analytics</b>	<b>Excel Add-in</b>
Nothing to install		
Multiple data worksheets generating different types of charts
